Portfolio & Websites

Portfolio

Summary

I'm a web developer with a user mindset that prioritizes usability and adaptability during projects. Design sites and apps to engage users with aesthetically pleasing interfaces and exceptional UX elements. I am comfortable working on large-scale collaborations or individually developed assets.

Experience

Web Developer Jr & UI.UX Desingner

Web Application Development and Landing Pages Graphic design to complement the project

Education and Training

Autonomously

My current knowledge comes from online studies and courses. As I practiced, my skills grew, allowing me to understand and master the languages I use today
